The Director General

Higher Education Council (HEC)

Kigali, Rwanda

**Subject:** Application for Admission to the Medical Surgery Nursing (AO) Program

Dear Director General,

I am writing to express my sincere interest in being considered for admission to the **Medical Surgery Nursing (AO)** program under the Higher Education Council (HEC). I recently completed my Advanced Level studies at *Groupe Scolaire St Joseph Kabgayi*, where I pursued the *Physics–Chemistry–Biology (PCB)* combination and achieved strong academic results, including grades A in both Biology and Chemistry.

Growing up in Rulindo District, a rural area where access to healthcare remains limited, I have always been motivated to pursue a career that allows me to serve my community and contribute to Rwanda's health sector. Through my studies and personal experiences, I developed a deep passion for medical science and a desire to become a professional nurse who provides both skilled care and compassion to patients in need.

I am particularly drawn to the **Medical Surgery Nursing** program because it offers a balance of theoretical knowledge, clinical skills, and direct patient care experience. This program aligns with my long-term goal of working in Rwanda's healthcare system—especially in rural hospitals and health centers—to help reduce the shortage of qualified health professionals.

I believe that my strong academic foundation, dedication, and passion for service make me a suitable candidate for this program. I am ready to work hard, learn continuously, and uphold the values of professionalism, empathy, and excellence in all my future endeavors.

I would be truly honored if given the opportunity to study through the Higher Education Council and to contribute meaningfully to the improvement of healthcare delivery in Rwanda.

Thank you very much for considering my application. I look forward to your positive response.

Yours faithfully,

**Niyikunda Yvonne**
