

COMMENT ON THE UPDETED ZENGER APP

PLACE	COMMENT TO UPDATE
UPI	The way it is validated Plot number (last number on the UPI) cannot have more than three digits while size of digit increases time to time.
SECTORS, CELLS & VILLAGES	List is limited it cannot display all the elements.
Encumbrances, NLA Zoning classification, Master plan	Should be removed from APP and stay in WEB for are not data to be collected from the site.
Current Land use	We should chose more than one.
TENUERE	When the occupancy is tenant or Owner & tenant is chosen. We need a place to add rental amount.
SITE WORK (Finishing, Gate, Yard)	Should have ADD CUSTOMER OPTION.
SITE WORK	Should have The 3 rd Site work where we will add site work like Water tank, Septic tank, ...
BUILDING (Flooring, Wall finishing, Windows, Doors, Ceiling System)	Should have ADD CUSTOMER OPTION.
BUILDING (ROOF)	Before roof structure there should be ROOF FORM where we have Mono-pitched, Double-pitched and Milt-pitched while they are placed in roof structure.
BUILDING (Roof Covering Materials, Fittings & System, Accommodation)	Should have ADD CUSTOMER OPTION
Submission	After submitting the main house the pictures select stay on the sheet. They have to be submitted with the main house.
