PROFESSIONAL SUMMARY

Dynamic and innovative UI/UX Designer & Frontend Developer with over 2 years of proven expertise in crafting user-centered digital experiences. Specializes in transforming complex user requirements into elegant, intuitive designs while implementing them with clean, scalable code. Demonstrated success in collaborating with cross-functional teams, delivering 20+ projects for startups and established businesses, and consistently improving user engagement through thoughtful design solutions.

CORE COMPETENCIES

Design Expertise

- **UI/UX Design:** Advanced proficiency in Figma, Prototyping, Wireframing
- **User Research:** User Personas, Usability Testing, Journey Mapping
- **Visual Design:** Mockups, Brand Identity, Design Systems

Technical Skills

- **Frontend Development:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frameworks & Libraries:** React.js, Next.js, Angular, Bootstrap, Tailwind CSS
- **Database:** MySQL, MongoDB
- **Design Tools:** Adobe Illustrator, Figma, UIPilot
- **Development Tools:** Visual Studio Code, GitHub, Version Control

Professional Skills

- Leadership & Team Collaboration
- Client Communication & Stakeholder Management

- Agile Development Methodologies
 - Problem-Solving & Critical Thinking
-

PROFESSIONAL EXPERIENCE

UI/UX Developer | AbyTech-Hub

June 2024

- Architected and prototyped responsive web and mobile application interfaces using modern design principles
- Established comprehensive design systems and component libraries, improving design-to-development workflow efficiency by 20%
- Facilitated seamless collaboration between design and development teams through clear documentation and handoff processes
- Implemented user-centered design methodologies to enhance overall product usability

Freelance UI/UX Designer | Self-Employed

2022 – Present

- Successfully delivered 20+ comprehensive design projects including websites, mobile applications, and business dashboards
- Created complete brand identity packages encompassing logos, style guides, and visual systems for emerging startups and established businesses
- Conducted user experience audits and implemented strategic improvements, resulting in measurable increases in client engagement rates
- Managed full project lifecycle from initial client consultation through final delivery and post-launch support

UI/UX Design Intern | Bittwok LTD

2024

- Contributed to user experience design for client websites, focusing on user flow optimization and interface layout design
 - Assisted in developing internal design assets and establishing brand guidelines for consistent visual communication
 - Participated in design reviews and collaborated with senior designers to refine project deliverables
-

FEATURED PROJECTS

Restaurant QR Menu Digital Platform

Role: Lead UI/UX Designer & Developer

- Designed and developed a comprehensive digital menu platform enabling restaurants to create accounts and manage digital menus
- Implemented QR code scanning functionality for instant menu access, eliminating traditional menu distribution needs
- Created intuitive ordering workflows through detailed Figma prototyping to optimize customer experience
- Developed responsive web application ensuring seamless experience across all devices

Tourism & Travel Guide Platform

Role: UI/UX Designer

- Designed modern, engaging user interface for comprehensive tourism platform featuring attraction discovery, tour booking, and travel guidance
- Conducted extensive user research and persona mapping to inform navigation architecture improvements
- Created interactive, responsive Figma prototypes ensuring optimal user experience across desktop and mobile platforms
- Implemented accessibility standards to ensure inclusive design for diverse user groups

Car Accident Insurance Claims Platform

Role: Lead Designer & UX Researcher

- Designed digital claims processing platform streamlining accident reporting and claim management
- Developed step-by-step claim submission workflows incorporating photo upload capabilities and geolocation services
- Created comprehensive admin dashboard wireframes enabling insurance staff to efficiently process and track claims
- Achieved significant user experience improvement, reducing claim filing time from days to minutes

Peer-to-Peer Money Transfer Application

Role: UI/UX Designer

- Designed secure, user-friendly interface for peer-to-peer financial transactions platform
- Created comprehensive user flows for sending, receiving, and tracking financial transactions with emphasis on security and transparency

- Integrated multi-layer authentication and verification interfaces to establish user trust and platform security
- Developed mobile-first design approach with Figma prototypes highlighting seamless user journeys

Tax Transportation Management System

Role: Lead UX/UI Designer

- Designed comprehensive digital system for managing public transportation taxes and driver record management
- Created role-based dashboards for drivers, administrators, and regulatory officials featuring real-time tracking capabilities
- Prioritized usability and accessibility standards ensuring optimal experience across various devices and user capabilities
- Implemented data visualization components for enhanced decision-making support

Bookshore E-commerce Platform

Role: Full-Stack Designer & Developer

- Developed responsive e-commerce website specializing in second-hand book sales
- **Technology Stack:** HTML5, CSS3, JavaScript, Daisy UI, MySQL
- Created comprehensive admin dashboard with user authorization and inventory management features
- Implemented secure payment processing and user account management systems

Ada Academy Online Learning Platform

Role: UI/UX Designer & Frontend Developer

- Designed and developed comprehensive course enrollment system with responsive user interface
- **Technology Stack:** HTML5, CSS3, JavaScript
- Created intuitive learning management system interface enhancing student engagement and course completion rates

EDUCATION

Bachelor's Degree in Software Engineering

University of Lay Adventists of Kigali (UNILAK)

March 2022 – Present

Advanced Level Education

College Adventiste de Rwankeri

January 2015 – August 2017

PROFESSIONAL CERTIFICATIONS

- **Web Development Certification** - Google Developer Student Clubs (GDSC), 2023
 - **UI/UX Design Professional Certification** - 2024
-

LANGUAGES

- **English:** Professional Fluency
 - **Kinyarwanda:** Native Fluency
-

ADDITIONAL INFORMATION

Available for: Full-time positions, Contract work, Remote collaboration

Preferred Work Environment: Collaborative, innovation-focused teams

Professional Interests: Emerging web technologies, User experience research, Sustainable design practices
