

Greetings The House of Kemmy Team,

I'm excited to apply for the Digital Account Manager role because nothing makes me happier than great ideas, organized chaos, and digital magic coming together. This role feels like the perfect mix of all the things I love, creativity, strategy, and keeping clients smiling (and informed!).

With my background in visual communication, sales, social media and marketing, I've become the person who can understand what clients want, turn it into a clear plan, and guide teams to bring it to life online. I'm always plugged into digital culture, love spotting trends early, and enjoy building campaigns that actually deliver results, not just pretty visuals.

I've always admired how The House of Kemmy makes brands look alive, stylish, and smart. I'd love to bring my energy, curiosity, and "let's make this even better" attitude to your team.

Thank you for considering my application, can't wait to possibly join the magic!

Warm regards,
Emma
