Hiring Team

The House of Kemmy

Kigali, Rwanda

Dear Hiring Team,

I am excited to express my interest in the UI/UX & Graphic Designer position at The House of Kemmy. With hands-on experience in designing intuitive digital experiences and producing visually compelling graphics, I am confident in my ability to contribute meaningfully to your creative team. Your focus on design as a core part of the brand strongly aligns with my passion for crafting thoughtful, user-centered solutions.

In my recent work, I have designed interfaces for both mobile and web platforms, always starting with user research to understand pain points and turning those insights into wireframes, prototypes, and polished final designs. I am highly skilled in Figma and Adobe XD, tools I use daily to create clean, consistent layouts and design systems that improve usability and strengthen brand identity.

Collaboration is at the center of my process. I work closely with front-end developers to ensure that designs are implemented accurately and efficiently, and my foundational knowledge of HTML and CSS allows me to communicate seamlessly with dev teams. Beyond UI/UX, I bring strong graphic design capabilities — from icons and banners to social media assets and brand visuals that communicate clearly and inspire engagement.

What draws me most to The House of Kemmy is your commitment to producing meaningful, story-driven design. I value environments where creativity is paired with purpose, and I am eager to bring fresh ideas, aesthetic clarity, and a user-first mindset to your projects.

Thank you for considering my application. I would welcome the opportunity to contribute to your team and further discuss how my experience aligns with your needs.

Warm regards,

izabayo gustave
